PROFESSIONAL SUMMARY

Full-Stack Software Developer with hands-on experience building responsive, user-centered web and mobile applications using JavaScript, TypeScript, React Native, Node.js, and NestJS. Developed scalable backend systems, RESTful APIs, and managed databases while integrating third-party services including payment gateway systems. Collaborated remotely through Git-based workflows and Agile/Scrum environments, taking on rotating leadership roles as Product Owner and Scrum Master within distributed development teams. Committed to writing clean, maintainable, production-ready code and contributing meaningfully to global remote engineering teams.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
- **Frontend Development:** React.js, React Native, Responsive UI Design
- **Backend Development:** Node.js, NestJS, RESTful APIs, Supabase (PostgreSQL) •

Tools & Platforms: Git, GitHub, CI/CD Pipelines, Render, Figma

- **Methodologies & Practices:** Agile/Scrum, Test-Driven Development (basic), Code Reviews • **Remote**

Collaboration Skills: Asynchronous communication, task tracking, distributed team collaboration • **Soft**

Skills: Problem-solving, communication, adaptability, self-management

- **Project Management & Collaboration:** Trello, Sprint Planning, Stakeholder Communication, Documentation, Team Collaboration

PROFESSIONAL EXPERIENCE

Software Engineering Apprentice –2026

Refactory Academy Uganda

- Built full-stack web applications using modern JavaScript technologies in a structured, professional training environment.
- Collaborated with distributed teams via Git and GitHub, applying branching strategies, pull requests, and code reviews.
- Participated in Agile/Scrum ceremonies including sprint planning, daily standups, and iterative delivery cycles.
- Implemented CI/CD pipelines to automate testing and streamline deployment workflows. •

Delivered responsive, scalable web applications with a strong focus on usability and clean code.

- Communicated progress, blockers, and updates effectively using digital collaboration tools in a remote team setting.

PROJECTS

Relationship Mobile & Web Application

Tech Stack: NestJS, TypeScript, JavaScript, Supabase (PostgreSQL), RESTful APIs, Render

- Built and maintained the backend of a relationship/dating platform that supports both a mobile and web application.
- Designed and developed RESTful APIs connected to the frontend teams across both platforms. •

Implemented user authentication including JWT tokens, role-based access, and secure login handling.

- Integrated a payment gateway supporting premium subscriptions, coach payments, and automated revenue splitting between the platform and coaches.
- Rotated between Product Owner and Scrum Master roles in weekly Agile sprints.

Wood & Furniture Management System

Tech Stack: HTML, CSS, JavaScript

- Developed a web-based inventory management system for tracking wood and furniture stock. •
- Designed a simple and intuitive interface for managing and viewing inventory data. •
- Implemented responsive design to support usability across multiple devices.

Personal Portfolio Website

Tech Stack: HTML, CSS, JavaScript

- Built a fully responsive personal portfolio website to showcase skills, projects, and contact information. •
- Implemented interactive UI features, including a typewriter animation to enhance user engagement. •
- Applied responsive design principles to ensure compatibility across mobile, tablet, and desktop devices. •
- Organized content into structured sections for improved navigation and user experience. • Deployed using GitHub Pages for live access and version control.

EDUCATION

Refactory Academy: Software Engineering (2025)

BrighterMonday: Soft Skills (2025)

Galaxy Institution, Uganda: Computer Literacy (2024)

LANGUAGES

ENGLISH – Fluent

ARABIC – Fluent

ZANDE – Native
